RESPECT FOR THE ENVIRONMENT: BEHAVE RESPONSIBLY!

For more than a decade, the Tour de France has been implementing measures designed to reduce its environmental footprint.

Along with organisations such as the Assembly of the Departments of France (ADF), the Regional Agency for Sustainable Development (ARPE Midi-Pyrénées), and Vacances Propres, you can also be a major player in our campaign.

On the Tour:

- ◉ I sort out recyclable packaging (plastic, glass, paper, cardboard) and batteries;
- ◉ If I'm a smoker, I throw my butts in an appropriate place or keep them.

I'M A RIDER

- ◉ When I want to dispose of rubbish (bottles, packaging) during the race, I make use of the collection points at the beginning and the end of feed zones, as well as the collection point located 20 kilometres from the finish or at the foot of the last climb on mountain stages;
- ◉ Away from these areas, I hand my rubbish to a following car or I keep it in my jersey pockets.

I'M A RACE FOLLOWER

- ◉ I turn off my car engine if I'm stopped for more than a minute;
- ◉ I encourage car-sharing whenever possible;
- ◉ I behave responsibly with regard to the environment by reducing my speed (less pollution, less consumption);
- ◉ I use the rubbish bags handed out at the start of the Tour and can get another one if necessary from the Point Info Tri or from a member of the waste management team;
- ◉ I also use the recycling bins that are available in all areas (the Tour Village, finish areas, service stations, the relais-étape mid-stage stops...). If there aren't any bins available, I keep my rubbish and dispose of it later.

I'M A MEMBER OF THE PUBLICITY CARAVAN

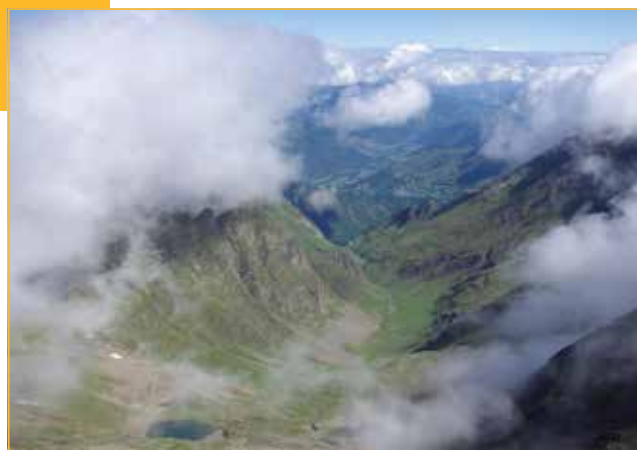

- ◉ I sort out packaging (cardboard, plastic wrapping and pallets) and put it in the skips provided for this purpose in the caravan's parking area;
- ◉ I adjust the distribution of the products I'm handing out depending on the terrain (crossing watercourses, passing close to cliff edges...) and the number of people on the roadside;
- ◉ I encourage the public not to throw packaging on the ground following the distribution of goodies.

If I have any doubts, I approach a member of the waste management team.

BETTER AWARENESS MEANS BETTER PROTECTION

Educating the public about the richness of their natural heritage is one of the core missions of the National Museum of natural History. In creating the series *The tour de France of Biodiversity*, the museum aims to promote this common heritage to the whole French population and make them aware of the importance of having a better understanding of nature in order to protect it better.

21 SPOTS FOR 21 STAGES

© Elite

Every day, at the start of the live broadcast on France 2 or France 3, Bernard Hinault will present *The tour de France of Biodiversity* in a fun and informative clip. 'The Badger', who is the ambassador for this initiative, will introduce these little trailers, which will reveal to viewers the outstanding natural

areas that are protected or managed by Man in order to better preserve nature. As they follow the Tour's riders, the public will discover the richness of the landscapes that the race passes through and the rationale behind the various conservation tools used within them. It will feature national and regional parks, nature reserves, biosphere reserves, and Natura 2000 areas.

A GOOD CONDUCT CHARTER FOR

THE SPECTATORS AND FOLLOWERS OF THE TOUR

- 1 **Respect** the rules of protected natural spaces
- 2 **Admire** the wild flora and fauna without disturbing them
- 3 **Banish** parking in natural areas
- 4 **Throw** paper and rubbish in allocated bins
- 5 **Stop** lighting fires
- 6 **Use** public transport as often as possible
- 7 **Keep** our streets clean
- 8 **Look after** our domestic pets
- 9 **Learn** about our natural environments
- 10 **Encourage** the spirit of sport and the riders!

The leading French public network with relation to culture and tourism with more than 9.5 million visitors per year, the **Centre des monuments nationaux (CMN)** both preserves 98 exceptional monuments together with their parks and gardens and opens them up to visitors. Thanks to their diversity, they illustrate the richness of France's heritage.

NATIONAL MONUMENTS IN THE HEART OF THE RACE

As it crosses the country, the Tour de France allows those who are eagerly following the race to discover many of the CMN's monuments. Featuring this year as a backdrop to the Tour de France will be: the Villa Cavrois in Croix (Nord department), the towers of Amiens Cathedral (Somme), the château de Carrouges (Orne), the standing stones at Carnac and the megalithic site at Locmariaquer (le Morbihan), Beaulieu-en-Rouergue Abbey (Tarn-et-Garonne), the Montmaurin archaeological site (Haute-Garonne), and Paris's monuments, notably the Arc de Triomphe, around which the riders will circle 10 times before crossing the final finish line on the Champs-Élysées on Sunday 26 July.

THINGS TO SEE AND DO

Le Boulevard des Pyrénées

On the Boulevard des Pyrénées, let yourself be charmed by the incomparable landscape that has been classified among the Horizons Palois since 1944. It is a unique setting, combining the River Gave and its tributaries, hillsides dotted with vineyards, woods and villas against the backdrop of the Pyrenees.

Le Parc and the Palais Beaumont

Built in 1900 to host events for rich holidaymakers, the Winter Palace of the Palais Beaumont now houses a casino and one of Europe's finest convention centres. It is located in the heart of a beautiful park featuring 110 species of tree, some of which are remarkable for their size, age or their rarity, such as the Louisiana bald cypress and the Virginia persimmon. There is also an open-air theatre.

The National Museum of the Château de Pau

Built on a rocky outcrop overlooking a ford on the River Gave, the Château de Pau's foundations date back to the Middle Ages. Henry IV was born there on 13 December 1553. Restored under Louis-Philippe, the castle became a museum in 1926. In addition to the royal apartments, it houses important collections dedicated to Henry IV, as well as many tapestries and the royal shell cradle, which is always prominently displayed there.

The Gave de Pau Natural Urban Park

Its 250 hectares run for 13km along the banks of the Gave. Remarkable for its natural heritage, the park aims to enable everyone to enjoy a natural space within a town setting. You can take advantage of the bike path along the banks to savour a moment of leisure and relaxation either on your own or with you family.

The Gelos stud

Established in the early 19th century at the order of Napoleon I in the Château du Duplâ, the Gelos national stud is one of the most beautiful sites of this type, being set within a 13-hectare tree-filled park. The stables are home to 140 stallions of 10 different breeds. There are also 12 horse-drawn carriages that are classified as historical artefacts. There are activities available to the public throughout the year.

La Gendarmerie nationale, présente sur le Tour de France depuis 1903

La Gendarmerie nationale met en place un dispositif à la hauteur de cet événement en mobilisant l'ensemble des groupements de gendarmerie départementale traversés.

A ce titre, un officier de la direction générale de la gendarmerie nationale conseille les organisateurs pour les questions de sécurité.

Depuis 1953, 45 gendarmes de l'escadron motocycliste de la garde républicaine assurent le bon déroulement de la course, y compris en matière de sécurité routière, développant ainsi un savoir-faire unique et reconnu.

Un service d'ordre de 11 000 gendarmes départementaux, gendarmes mobiles, élèves gendarmes et réservistes, est déployé sur le terrain, complété par un dispositif aérien composé d'hélicoptères de

la gendarmerie qui assurent, au quotidien, des missions de sécurité aériennes et d'appui aux unités.

Les brigades territoriales compétentes sur l'itinéraire effectuent les enquêtes judiciaires relatives aux faits constatés sur le Tour de France.

Enfin, au sein de la caravane publicitaire, la gendarmerie diffuse en amont des messages de bon sens et de prudence à l'attention des spectateurs, enfants et adultes. En appui de ces messages l'opération « Témoins de sécurité » rappelle concrètement, par la remise de chasubles à des endroits exposés du parcours, les règles essentielles de sécurité à observer au passage des coureurs et des véhicules.

OFF-COURSE ITINERARY

From the parking areas at the assembly point, vehicles that aren't accredited for the race itinerary will have to take the boulevard Alpes Provence and then the D2532 N (in the opposite direction to which they accessed the site) to join the A49 towards Valence (junction 6). They will continue on the N532 and then the Périphérique Est de Valence (N7) to join the A7 (junction 15 "Valence-Sud") towards Marseille. After the Lançon-de-Provence péage (toll), they will continue on the A8 in the direction of Aix-en-Provence. They will leave the A8 at exit 29 "Aix-Ouest" and continue in the direction of Gap/Sisteron/A51 through Aix-en-Provence (on the D64 and the N296/E712). They will continue on the A51 and then on the N85 towards Gap. Reaching Gap, they will head in the direction of Briançon via the avenue de Provence, avenue François Mitterrand, avenue Jean Jaurès and then boulevard Georges Pompidou, where signs will guide them towards the car parks at the assembly point.

Total distance: 370km

THINGS TO SEE AND DO

Old Centre

Discover it at your own pace with an audio guide that can be picked up at the Maison du Tourisme (Tourism office) at 1, place Jean Marcellin. You can stroll around admiring the many treasures of our heritage.

Sentier de Puymaure

Starting in the city centre, this one-and-a-half hour walk leads to the Puymaure hill that overlooks Gap. At the top, seven boards relate the history of the two citadels erected by François de Bonne Lesdiguières.

Domaine de Charance

4km northwest of Gap, the domain covers 220 hectares backing onto Mount Charance. Hiking trails start there, and there are also walking trails, a terraced garden that is classified as a remarkable garden, a romantic lake, a breathtaking panorama, and also exceptional fauna and flora. (Free shuttles leave from the Faure du Serre in the city centre).

Departmental Museum

Have a break at the Departmental Museum, which offers free entry. It takes visitors on a timeless journey into the history of art (from prehistory to contemporary art), where they will get acquainted with the various artistic eras and works, the heritage of the Hautes-Alpes and, in addition, there are permanent collections and current works.

Gap-Bayard 18-hole golf course

Ten minutes from the city centre, Gap-Bayard is a vast plateau dominated by the Gleize and Chaillol peaks. To get a good fill of oxygen, you will find an 18-hole golf course that extends over 120 hectares. (Free shuttles leave from the Faure du Serre in the city centre)

Aerial sports

15km distant, Gap-Tallard has emerged as the centre of French aerial sports. The conditions are perfect for very beautiful journeys through the skies: skydiving, paragliding, hang gliding, ballooning, gliding... (Options for beginners).

Organ and saxophone concerts

At 18.00 in the cathedral, there are classical music recitals and jazz improvisations.

City centre nocturnes

Musical entertainment in the streets of Gap with shops open until 23:00.
