- **a warning to temporary exclusion from the race**
- **or even more severe penalty** for more serious or repeat offences.

Refusal to obey vehicle regulations

will result in the immediate withdrawal of the vehicle concerned from the race caravan and its driver being called before the disciplinary committee.

The tolerances allowed on the roads within this privately run event do not extend to lessening of the criminal responsibility of every driver in the event of an accident.

BE AWARE, IT'S YOUR TOUR!

PLEASE BEHAVE RESPONSIBLY!

For more than fifteen years, the Tour de France has been implementing measures to reduce its environmental impact. Along with local councils, Départements de France (DF) and organisations such as Les Connexions, Gestes Propres and ecosystem, you too can become a major player in our initiative.

WASTE MANAGEMENT

TO EVERYONE ON THE TOUR!

- You're responsible for the waste that you generate, both in the areas where you're working and when you're in other zones on the race!** You need to make proper use of the waste management systems that are set up in the Tour de France's different zones (Technical Zone, press centre, service stations, etc.). If there aren't any rubbish bins close to hand, you should hold on to your litter until you can dispose of it later. You shouldn't leave rubbish in a corner or lying on a table at any time and you also shouldn't throw anything on the ground, no matter whether you're in one of the Tour de France's zones, out on the road, or in a hotel! If you're a smoker, **don't throw your cigarette butts on the round.** Ashtrays can be provided by the race's environmental coordinators.
- You're responsible for the health protection equipment that you've used** (masks, gloves, tissues...). You should never leave them lying around or throw them on the ground. Once you've used them, put them in the bins intended for household waste (grey bin bags, containers with grey stickers).
- You're responsible for sorting** all recyclable packaging, batteries and electrical equipment, using the disposal facilities put in place in the different zones. You should identify the contents by sticking labels on them. **I empty all recyclable packaging in bulk** in the dedicated bins (yellow stickers).
- You should use the rubbish bags provided by the Tour de France and dispose of them in the containers provided for this purpose** in the different zones (bags can be collected from the permanence at the Grand Départ, in the Technical Zone in the Tour Village at stage starts and from waste management coordinators present at starts and finishes throughout the race).

IF YOU'RE PART OF THE PUBLICITY CARAVAN

- You should adjust the amount of material** you hand out depending on the location (watching out for water courses, cliff edges...) and the number of spectators at the roadside;
- You should encourage fans to dispose sensibly** of the packaging that comes with the publicity products that are distributed to them.

IF YOU'RE A RACER

- During the race**, when you need to throw away any rubbish (bottles, packaging), you should do so in the collection zones;
- When you're not in these zones**, pass your rubbish to a car in the convoy or keep it in the pockets of your jersey.

© A.S.O.

AND ONCE AGAIN THIS YEAR:

ecosystem is joining us to manage the disposal of small items that are no longer needed (e.g. coffee makers, bulbs...).

Environmental Coordinators are available to support you throughout each stage and will provide the equipment required for waste management. We invite you to collect bin bags and battery collection boxes from them at the Grand Départ staff HQ or in the Technical Village at the waste sorting information point. For the finish, they can be contacted using the details provided at the bottom of the waste sorting guide.

DRIVING

IF YOU'RE USING A CAR ON THE RACE

- You should switch off the vehicle's engine if you stop for more than a minute;
- You should encourage car-sharing whenever possible;
- You should drive in an eco-friendly manner, paying attention to your speed (less pollution, less consumption).

Waste management coordinators can be found at the start and finish of every stage and will ensure proper implementation of these initiatives and provide you with advice.

Don't hesitate to contact them if you've got any queries or want to dispose of specific waste items (electrical equipment, lamps...).

Tour de France • New stage town

- Cycling:** A growing network of cycle paths and more than 75km of routes connect the city to its beaches and green spaces.
- Culture:** The city's soul emanates from its Roman ruins, a UNESCO World Heritage Site, its medieval cathedral and old town, as well as its Modernist gems. Its cultural heart beats to the rhythm of Santa Tecla, Carnaval (Carnival), Easter processions, Tarraco Viva (Roman festival), and the famous Concurs de Castells, where human towers are created in an impressive display of strength and tradition.
- Sport:** Tarragona hosted the 2018 Mediterranean Games, and the local sporting passion is particularly evident in the Camplar and Tarragona cycling clubs.
- Gastronomy:** Red prawns, tomato-based romesco sauce and fresh seafood encapsulate its authentic Mediterranean flavours.
- Distinction:** The only Catalan city listed as a UNESCO World Heritage Site. Don't miss the tocar ferro (touching the iron) ritual at the Balcony of the Mediterranean, which provides good luck and also offers a spectacular view.

Department (15) in the Auvergne-Rhône-Alpes region**Area:** 5,726km²**Population:** 145,000**Prefecture:** Aurillac**cantal.fr****cantal-destination.com****cantallauvergne.com**

Set in the heart of the Massif Central, the Cantal captivates visitors with the authenticity of its landscapes, its quality of life and the richness of its heritage. Shaped by one of the largest volcanoes in Europe, the department is blessed with breath-taking panoramas: Plomb du Cantal, Puy Mary, verdant valleys and high plateaus create a unique setting, ideal for walking and cycling, outdoor sports and exploring the great outdoors.

A land of traditions, the Cantal is renowned for its exceptional conviviality, which is highlighted by the friendliness of its inhabitants and the quality of its local products. Gastronomic specialties, top-quality meat and cheeses testify to the dynamism of its agriculture, which is committed to sustainability. Charming villages and local markets contribute to reinforcing this identity.

But the Cantal is also a department of innovation where local authorities, businesses and associations join forces to develop ambitious projects: economic attractiveness, revitalisation of town centres, ecological transition and welcoming newcomers. The quality of life and its unspoiled nature are attracting more and more families and entrepreneurs. What's more, its vibrant culture, which is showcased by numerous festivals and local fairs and its rich architectural heritage – castles, Romanesque churches and traditional mountain huts (burons) – make the Cantal an inspiring and authentic destination.

**Department (74) in the Auvergne-Rhône-Alpes region****Area:** 4,388km²**Population:** 861,000**Prefecture:** Annecy**[hautesavoie.fr](https://www.hautesavoie.fr)****4,805m, Europe's highest point**

In the heart of the massif of the same name, Mont Blanc is the highest point in the Alps and the highest peak in Western Europe. On the northern slopes of the massif lies the Mer de Glace, a 7km-long glacier that attracts several hundred thousand visitors each year. Millions also come to enjoy the thrill of skiing on the slopes of the 42 resorts that make Haute-Savoie the world's second most popular ski destination. As well as snow and the mountains, the region also features Lake Geneva and Lake Annecy, alpine pastures, and the Bauges Massif, a regional natural park and UNESCO World Heritage Site. Naturally, it also boasts a rich historical heritage, including the National Monument to the Glières Plateau Resistance, which pays tribute to the actions of the French Resistance fighters during the Second World War.

2027, the Rainbow Year

Across 13 days between 24 August and 5 September 2027, the Haute-Savoie Mont-Blanc region will host the 94th UCI Road World Championships, which are being held in France for the ninth time. Nineteen events will take place across twelve venues throughout the department: Annecy, Châtel, Cluses, Évian-les-Bains, La Clusaz, La Roche-sur-Foron, Les Gets, the Grand Massif, Rumilly, Saint-Pierre-en-Faucigny, Sallanches Domancy and Thônes. In 1980, Bernard Hinault was crowned world champion on the Sallanches-Domancy circuit.
